

# DSP3200

EASY - ALU

**Quest**  
UNDERCAR

Commercial Grade Wheel Balancer with  
the essentials needed for fast and accurate  
wheel service at economical price.

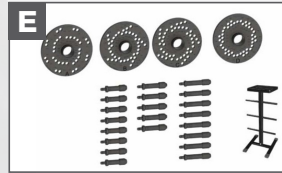

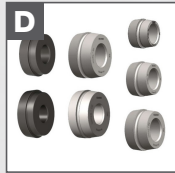

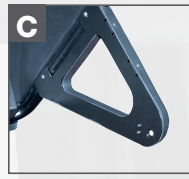

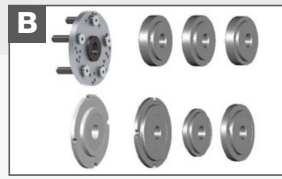

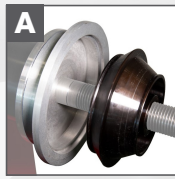

#### 4. Data acquisition arm

Electronic input of wheel diameter and distance with AUTOSELECT function which automatically activates the balancing programs, avoiding keypad selection.

This makes simple work of aluminum adhesive weight applications. Perfectly measures placement for correction weight. The Servo Drive motor will automatically position the wheel in 6 o'clock position for cleaning and installing new adhesive wheel weights.

## Optional Accessories

### A. Haweka HW150 400 091 : Truck Cone

Haweka Light Truck Cone Kit with Spacer

Includes: HW150 400 043: Centering Cone 122 - 174mm

HW190 400 018: Distance Spacer

### B. Haweka HW280 400 139 : ProMax MD Expert

- Expert Centering Solution for 8 and 10 lug Medium Duty Applications
- Hub Pilot Discs replicate vehicle hub exactly for expert mounting solution
- One lug adapter with long plug-in studs for all MD applications
- Problem solving solution for Chevy/GMC 8x180 and 8x210 applications
- Problem solving solution for Ford 8x170, 8x200 and 10x225 applications
- Problem solving solution for all 8x6.5 applications
- Application chart for plate and collet look up by vehicle included

### C. Quest 8-21100232 : Sonar Sensor Kit

3-D Sonar Width Sensor for DSP3200, GSP3600 Wheel Balancers. Enables automatic entry for Corghi, Mondolfo Ferro, and Quest Wheel Balancers.

### D. Haweka HW150 400 132: Pro Collet VII

OE Precision Collets and Dual sided, low taper collets for improved centering. Covers 99% of North American

### E. Haweka HW200 299 409 : Flange Plate Kit

Professional lug centering solution replicates vehicle lug mount Provides even and consistent pressure to hub adapter from lug position Application chart for plate and stud look up by vehicle included Includes short, long and ball seat plug-in studs

### F. Support Base 8-21100091

Front support base for balancing wheels up to 50 kg without fastening the machine to the ground.

### G. Quest BJ-05 : Wheel Balancer Lift

Universal Tire Lift for Wheel Balancers. A must for accurately centering heavy and custom wheels.
